## ***Done by People, Inspired by Calves***

*At Topcalf, we believe that people make the difference. Through innovation, we try to respond quickly to the latest market and regulatory developments. We conduct our own research and collaborate with various institutions and industry specialists to create the best possible environment for your calves. When developing our products, we always focus on calf comfort and ease of use.*

### ***Calf comfort***

*Our calf housing is distinguished by several aspects. In all of our calf hutches, the calves are always on high ground and therefore never on a wet or cold surface. In addition, our calf hutches are larger than average and easy to clean. Our calf housing solutions are equipped as standard with an insulated roof and ventilation sliders to ensure a good living environment in all conditions.*

### ***Ease of use***

*During development of our calf housing solutions, we do not only think about the comfort of the calf, but also about the working comfort for you as a dairy farmer. All our mobile calf housing solutions are easy to move and have two-part fronts. This makes it possible to enter a calf hutch without disturbing a drinking calf. All our calf boxes have removable partitions, which makes it easy to house calves in groups, and the calf boxes are equipped with integrated lighting and electrical connections. Another great advantage of Topcalf calf pens and calf hutches is that you can always work standing up and, thanks to the extended side walls and roof, you can always work in the calf hutch in a dry environment. Our calf huts have many more advantages and features which you can discover in this product brochure.*

# TOPCALF MONO

## XL | FIRST CARE

### CALF HUTCH - MONO

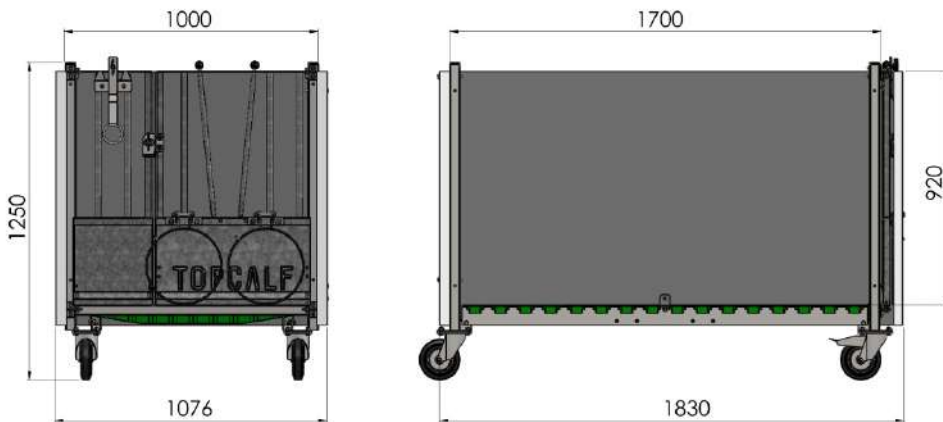

The Topcalf Mono calf hutch is a mobile calf box for 1 calf. Thanks to the castor wheels (2 with brakes), the hutch can be moved easily. In this hutch, the calf is always at the right height, on a removable plastic slatted floor. This means that the calf is always dry and not on a cold and/or wet surface.

Like all Topcalf calf pens and calf hutches, this calf hutch is equipped with a 2-piece front door, allowing you to enter the calf hutch without disturbing a drinking calf. The sturdy galvanised frame of this calf box guarantees a long lifespan. The Mono calf hutch is delivered in kit form with the accessories as shown in the picture.

- ✓ 4 Castor wheels (2 with brakes)
- ✓ 2-piece front door
- ✓ Removable plastic slatted floor
- ✓ Feeding bowls and tiltable holders
- ✓ All accessories included

### MONO - FIRST CARE

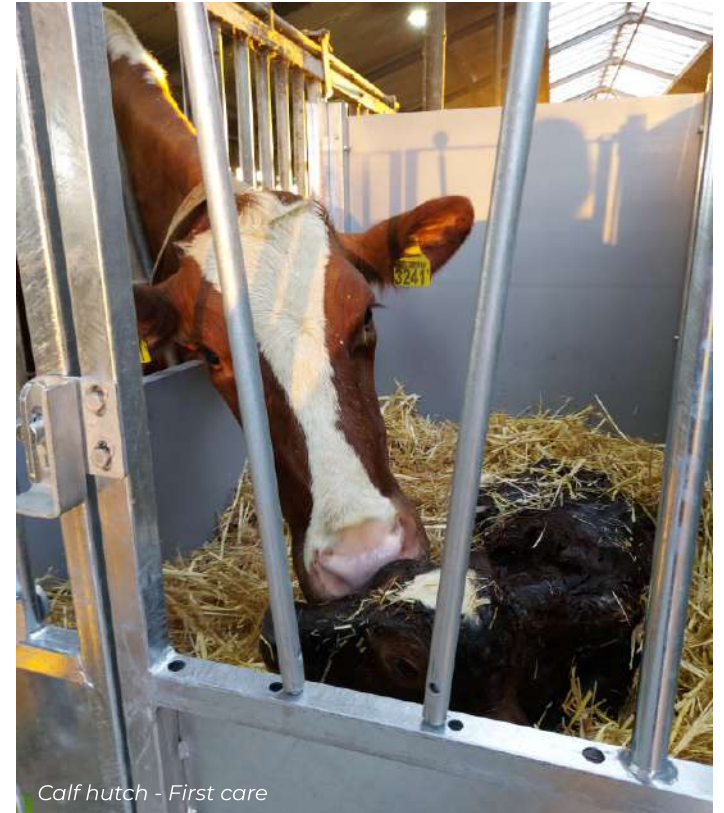

*Optional version with 2-part side wall. After calving, the calf hutch can be placed next to the feed fence.*

# TOPCALF DUO

## FLEX

### CALF HUTCH - DUO FLEX

The Topcalf Duo calf hutch can accommodate 2 calves. Like all Topcalf calf hutches, the "Duo" is equipped with two-part fronts, which allow access to the calf hutch without disturbing a drinking calf. In this calf hutch, too, the calf lies high up on a plastic slatted floor and is therefore never on a cold and/or wet surface. The Duo calf hutch can be moved easily thanks to its castor wheels (2 with brakes), but it can also be lifted from the front and moved with a forklift.

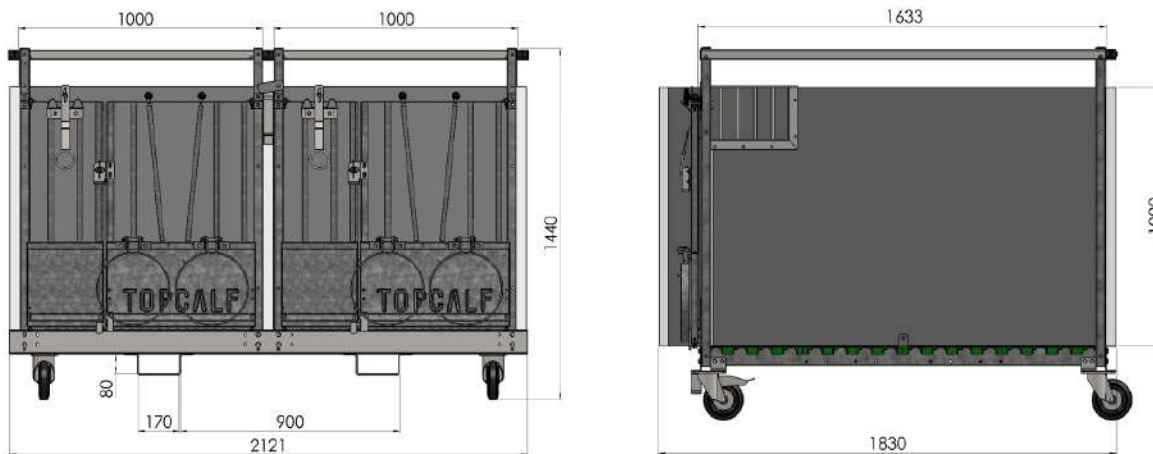

### PAIR HOUSING

The Topcalf Duo calf hutch is equipped with a removable partition wall, which makes it possible to house your calves individually or in pairs. Various studies have shown that housing two calves together has a positive influence on the social development of the calf. With the Topcalf Duo-flex, you can decide flexibly if and when to house your calves in pairs.

The Duo calf hutch is delivered in kit form with feeding bowls, tiltable bucket holders, teat bucket holders and teat bucket support.

# TOPCALF DUO

## XXL | EASY-CLEAN XXL

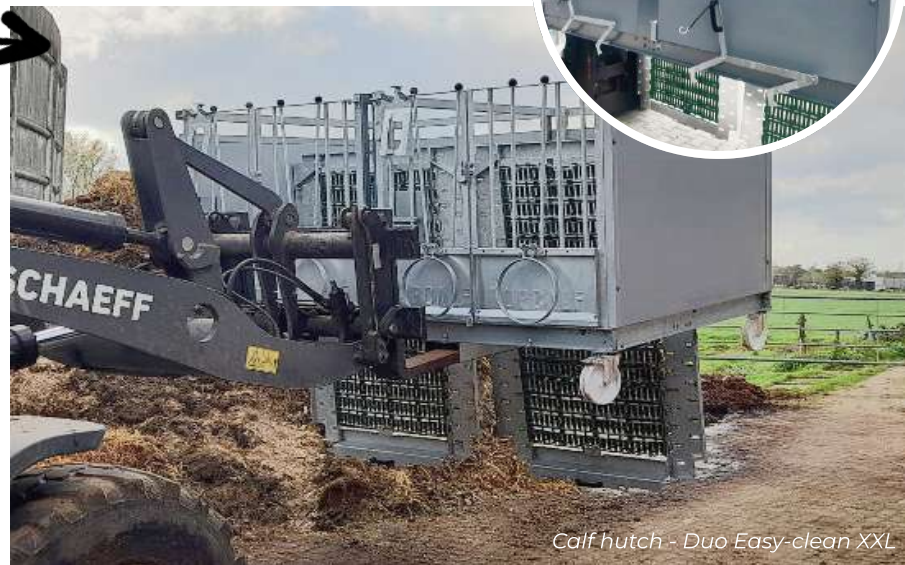

### CALF HUTCH - DUO XXL

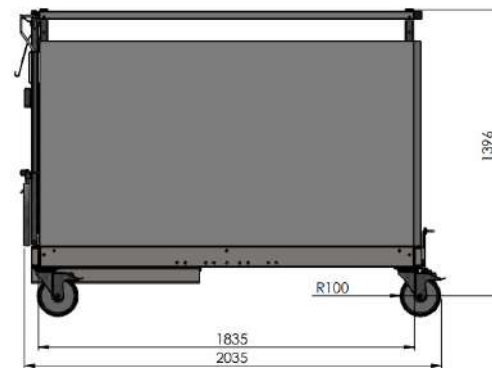

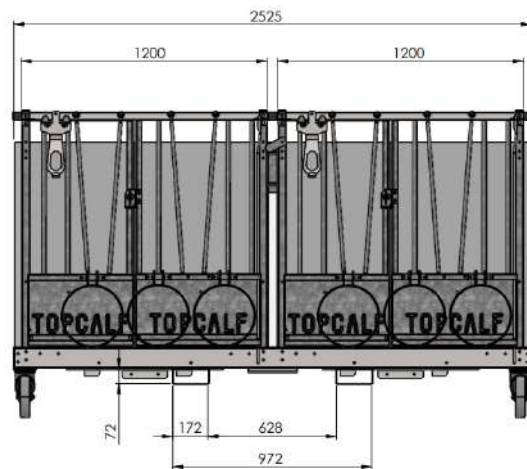

The Topcalf Duo XXL calf box is an extra large version of the Duo-flex calf hutch. This calf hutch has all the advantages of the Duo-flex and more! The Duo XXL has a total surface of 4.5 m<sup>2</sup> and was developed on the basis of the new regulations in Germany from 2023. These regulations are expected to follow in the rest of Europe as well. This very large calf hutch is equipped with very large two-part fronts with adjustable bars on both sides of the doors.

### TOPCALF EASY-CLEAN SYSTEM

The Topcalf Duo XXL calf hutch can also be supplied in an Easy-clean version. With the award-winning Easy-Clean system, both floors of the calf hutch can be tilted, which means that the calf hutch can be emptied and cleaned in a matter of seconds. As standard, the calf hutch can be picked up from the front and emptied over the manure heap.

Calf hutch - Duo Easy-clean XXL

## TOPCALF TRIO

### Indoor calf housing for 3 calves

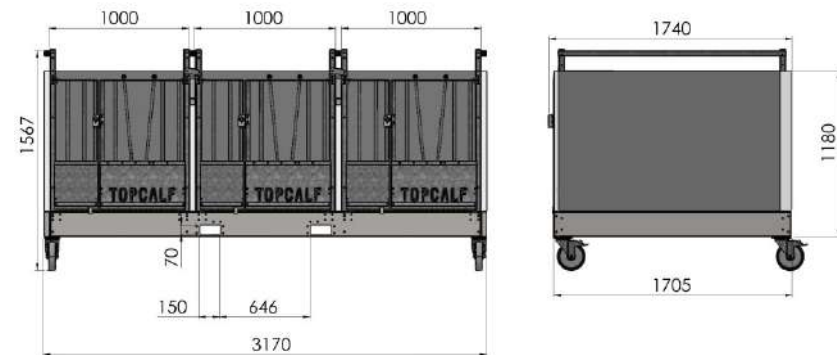

#### CALF HUTCH - TRIO (WITHOUT A ROOF)

The Topcalf Trio without roof is a mobile calf hutch for 3 calves, ideal for indoor calf housing. This calf hutch has a sturdy frame with 4 castor wheels, which makes it easy to move. In addition, the calf hutch can be lifted at the front and back with a forklift.

Like all Topcalf calf pens and calf hutches, this calf hutch is also equipped with 2-part fronts and has 2 removable partitions, allowing the calves to be housed individually, in pairs or in groups.

The calf hutch Trio (without roof) is delivered completely assembled as depicted below.

The accessories shown in the picture are included as standard.

Calf hutch - Trio (roofless)

# TOPCALF CALF PENS

Tailored to your needs and situation

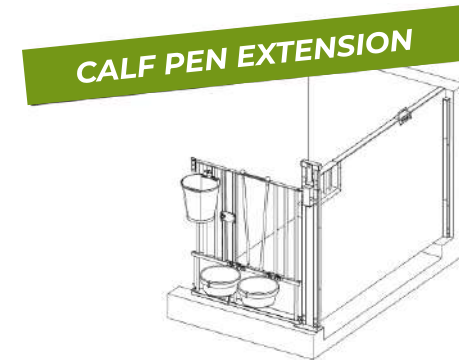

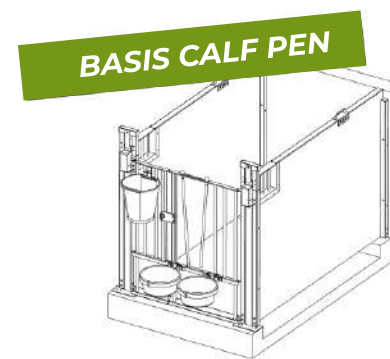

## FLEXIBLE CALF PENS

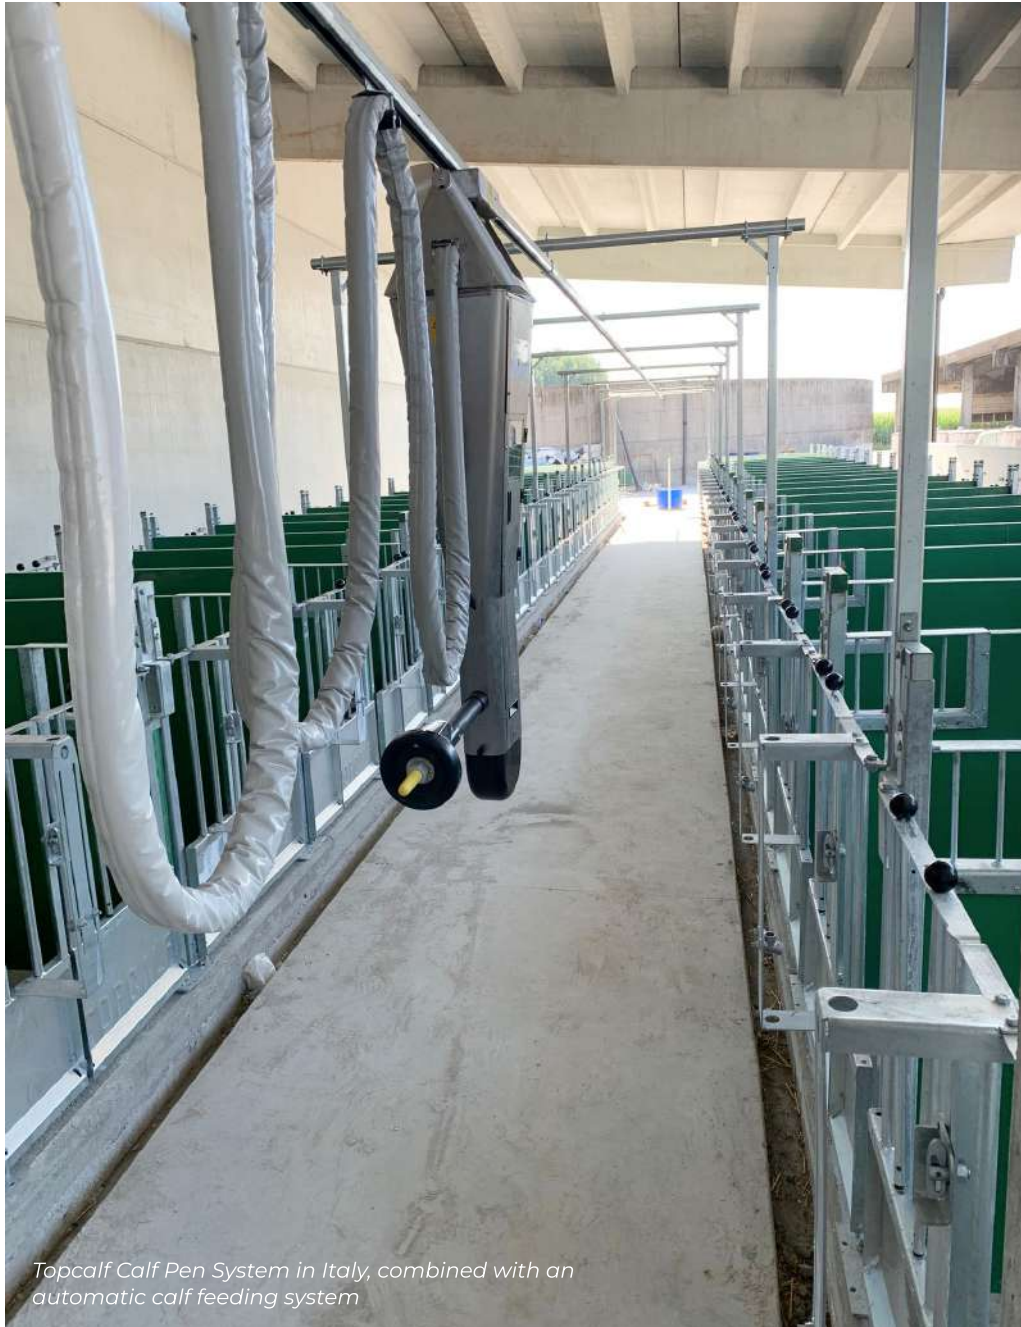

The Topcalf calf pen system consist of calf pens in a fixed position. You start with a “basis” calf pen after which you have the possibility to expand by adding “extension” calf pens. The modular Topcalf calf pen system makes it very easy to assemble or disassemble the extension pens. The Topcalf calf pen system can be used both indoors and outdoors.

The separation walls are easily removable, which makes it very easy to muck out and clean the calf pens. The separation walls also make it possible to create a small group housing. This way the calves can get used to living in a small group in an early stage. The separation walls are available in different lengths, heights and widths depending on the preferences and situation of the farmer.

Like all Topcalf calf housing solutions, the Topcalf calf pens are delivered with accessories as standard.

# TOPCALF - OUTDOOR CALF HOUSING

## TRIO | QUATTRO | QUINTO

### TOPCALF OUTDOOR CALF HOUSING

In addition to the smaller calf hutches and calf pens, Topcalf also offers calf hutches with insulated roofs for outdoor calf housing. The Trio calf hutch can accommodate 3 calves, the Quattro calf hutch can house 4 calves and the Quinto calf hutch can house 5 calves. These calf hutches are all equipped with insulated roofs, two-piece fronts, air ventilation sliders, lighting and power outlets.

In addition, the calf hutches are equipped with removable plastic slatted floors and the hutches can be easily moved from the front or the back with a forklift or a loader. The Trio, Quattro and Quinto are equipped with removable separation walls. These make it possible to create one or more (smaller) groups. The calf hutches are supplied completely assembled with accessories as standard.

The Trio and Quattro calf hutches are also available in an XXL model, with even wider and deeper dimensions. Optionally, the calf hutches can also be equipped with sliding curtains, manure collectors and/or extra large ventilation sliders. All calf hutches are supplied with the following accessories as standard: Feeding bowls, tiltable bucket holders, teat buckets and teat bucket supports.

### ALL ADVANTAGES:

- ✓ Easy to work with: Work standing up
- ✓ Insulated roof: protection against heat stress in the summer, protection against cold in the winter
- ✓ Rear ventilation slides: climate control in the calf hutch
- ✓ Extended side walls: Calves are always protected from draughts, which minimizes the risks of respiratory diseases
- ✓ The calves always lie high on a dry surface and never on a cold floor.
- ✓ Two-part fronts: allows access to a calf hutch without disturbing a drinking calf.
- ✓ Mobile: the calf hutches can be easily moved from the front or back with a forklift or front loader.
- ✓ Removable separation walls: Creating groups
- ✓ Lighting and electrical outlets
- ✓ Easy to clean: Solid plastic walls with removable plastic slatted floors
- ✓ Robust construction and materials guarantee a long lifespan
- ✓ Available in XL and XXL versions

## TOPCALF GROUP HUTCH

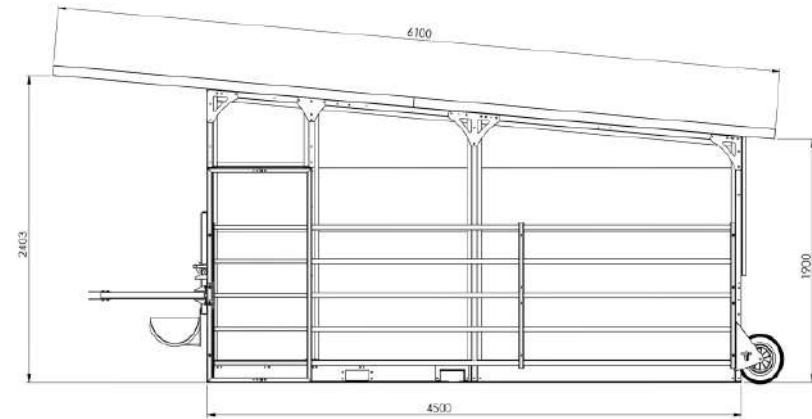

SLIDING DOOR AND FREE RANGE ARE OPTIONAL

### GROUP HUTCH

The Topcalf group hutch is the ideal solution for housing calves up to 16 weeks old. The group hutch can house 4 to 6 calves and can optionally be equipped with a sliding door and free range. The calf hutch has an insulated roof and the climate in the calf hutch can be regulated by means of the large ventilation slider at the back.

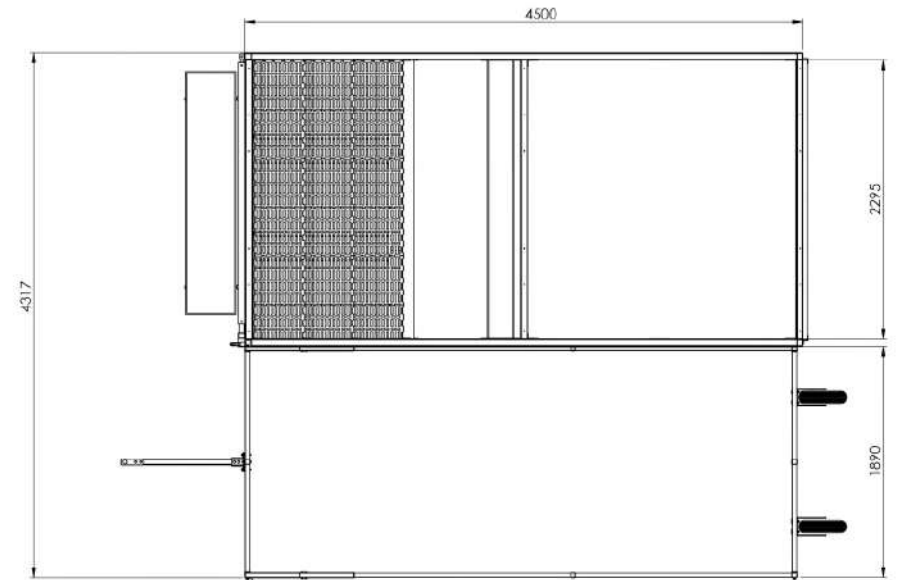

The calf box is equipped with a Palisade feed fence as standard and a plastic slatted floor at the front of the calf hutch. In addition, the group hutch is equipped with lighting, electricity, a hay rack and a drinking trough with connection as standard. The group hutch can also be moved easily as it can be lifted from the side as well as from the front with a loader.

Group Hutch

The group hutch are standard delivered with Palisade feed fence

# TOPCALF GROUP HUTCH
